

The Digital Standard for Field Staff Management

ActiveMap Platform: Absolute control, process transparency, and exponential efficiency growth for your service business.

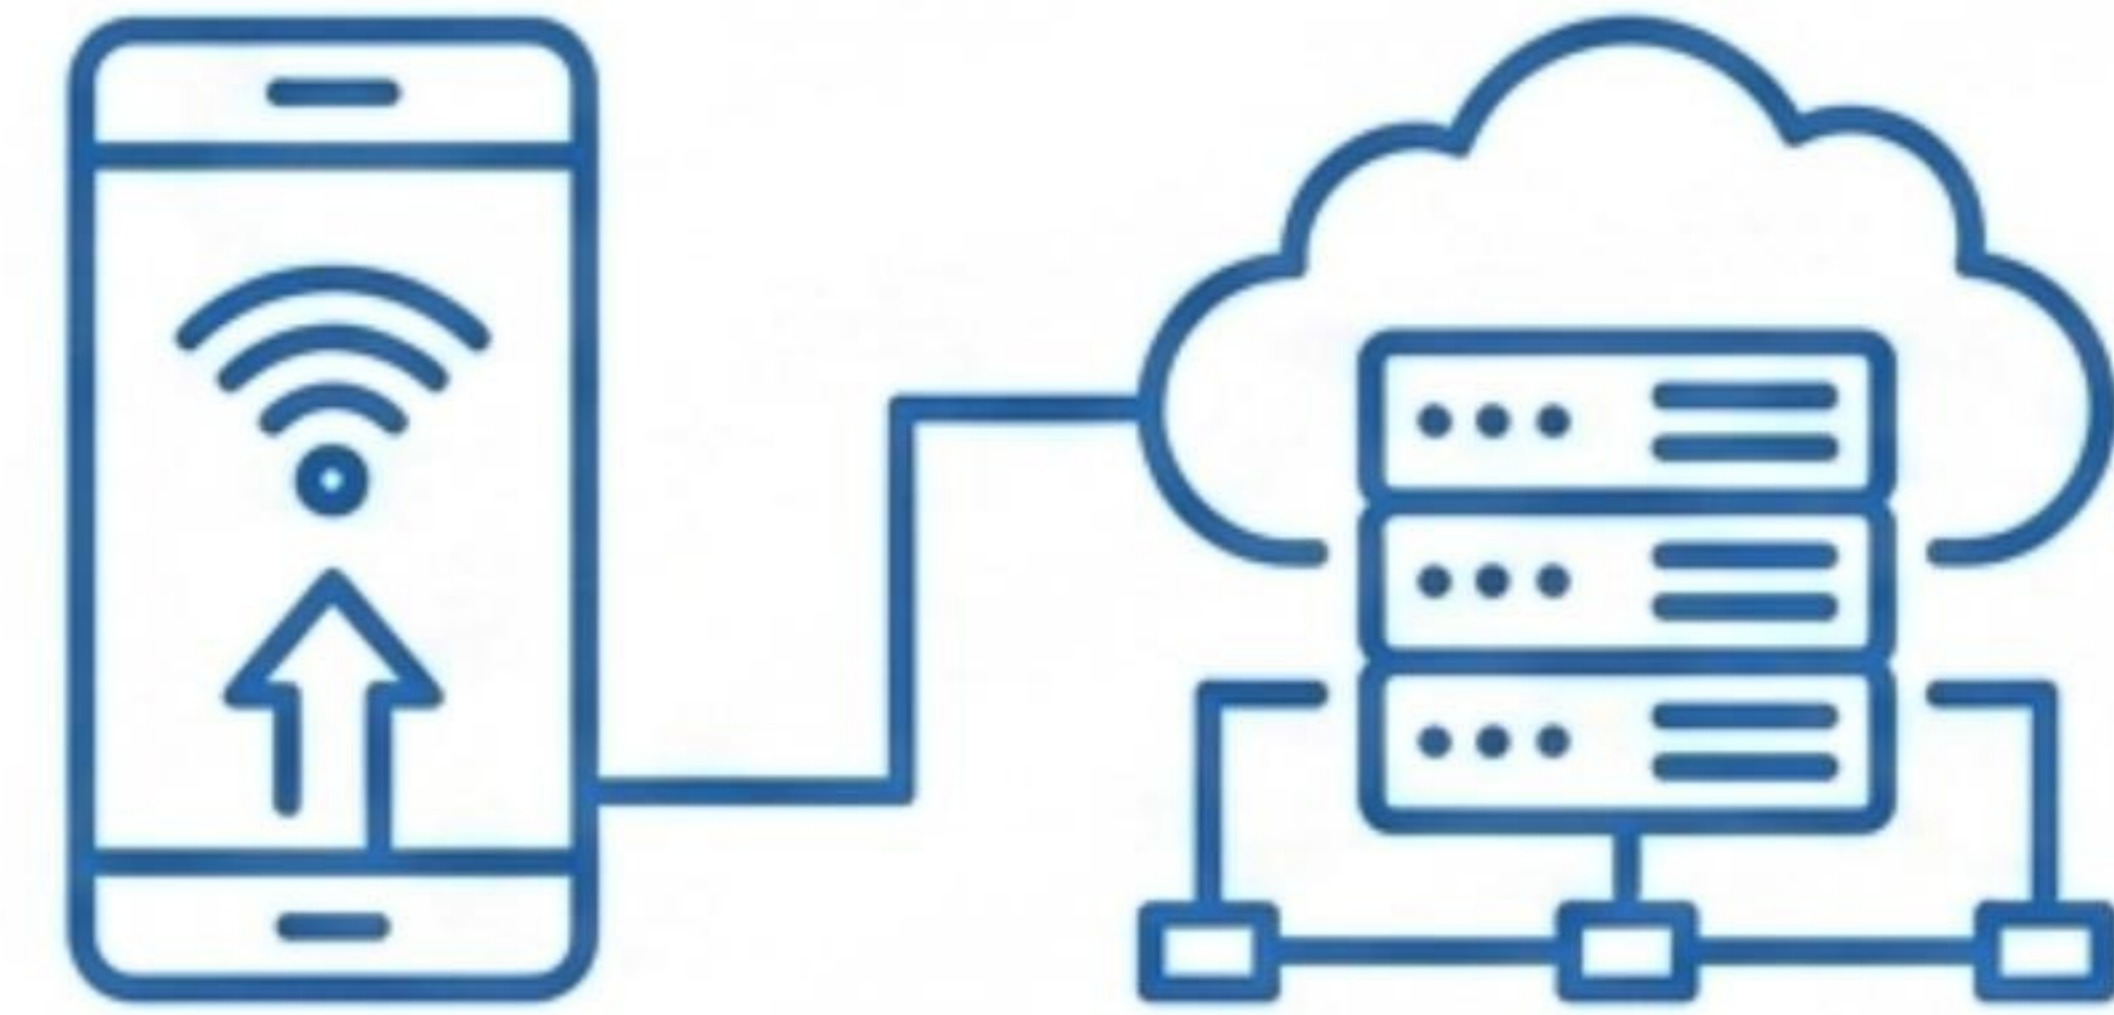

From Messenger Chaos to Complete Manageability

Before

- Dispersed request assignments via phone and reports in WhatsApp.
- Paper journals and manual data entry.
- Opaque tracking of time and material costs.

After

- Unified digital environment for dispatchers and field workers.
- Geo-tagged photo reports with spoofing protection.
- Online execution control and automated analytics.

Tools to Drive Your Efficiency

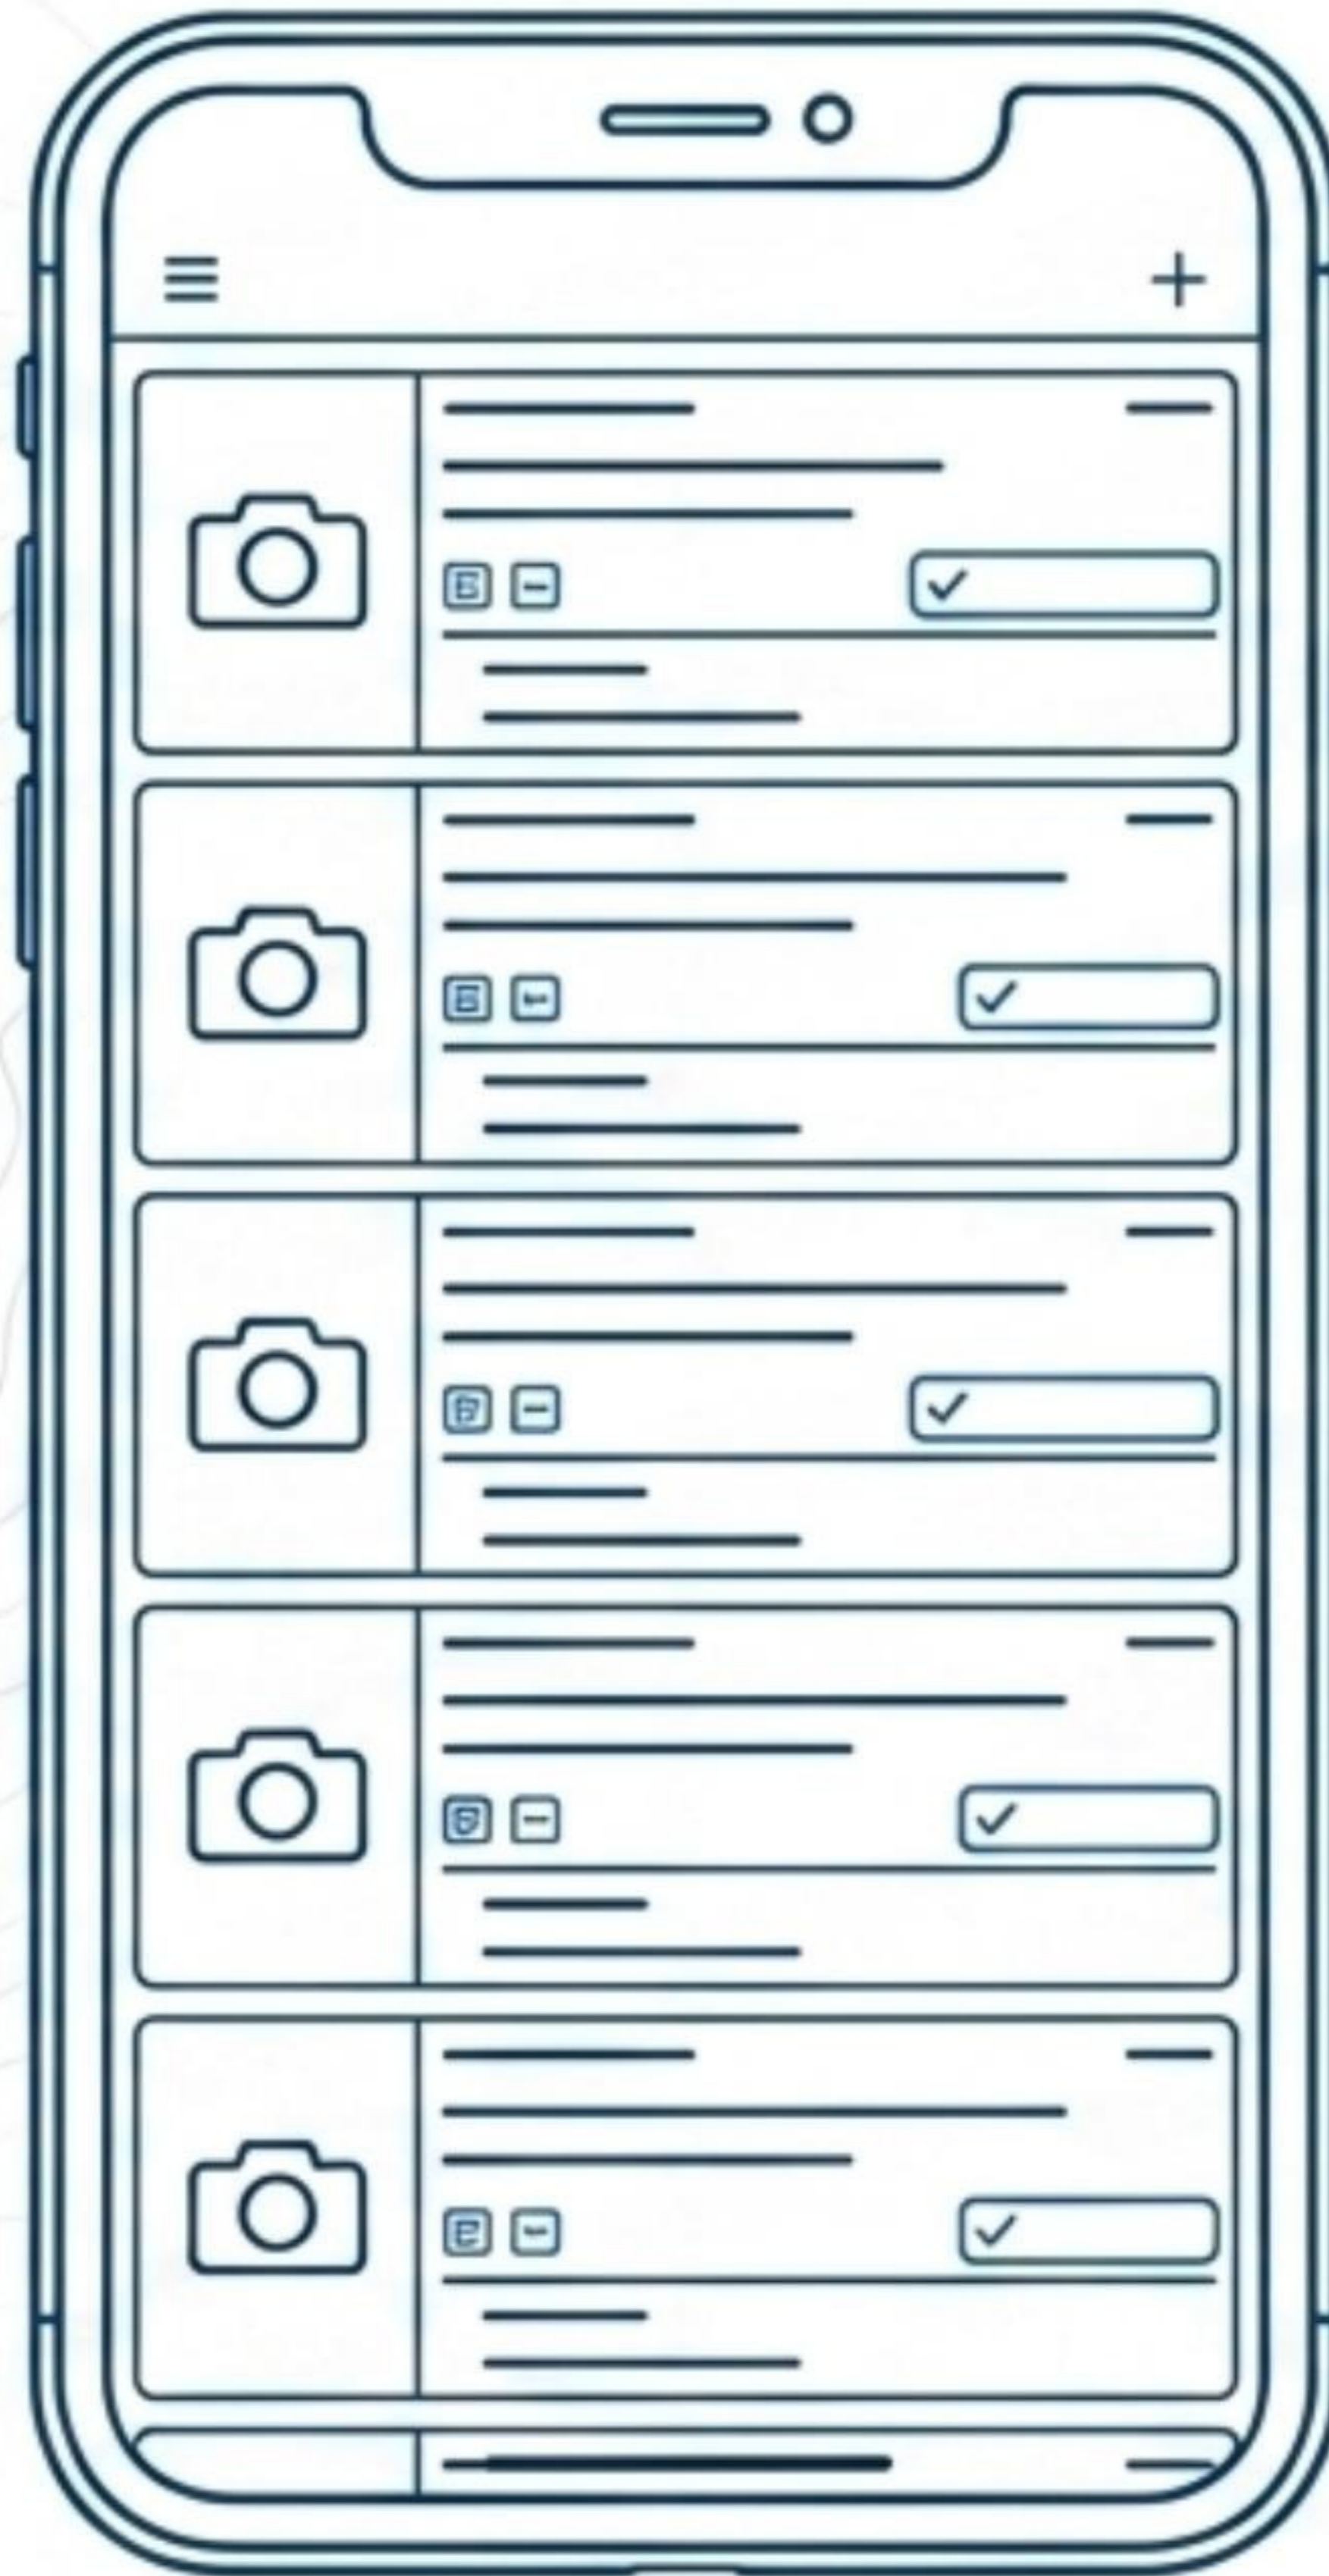

Task Management:

Assignment, routing, and execution control in a couple of clicks.

Interactive Maps:

Real-time monitoring of object locations and GPS tracking of mobile employees.

Mobile App:

A personal digital assistant for specialists to receive tasks and submit reports.

Analytics:

Objective data for making strategic management decisions.

Measurable Business Impact

50%

Communication
time reduction
(Increased operational
speed)

25%

Boost in customer
loyalty
(Stimulus for new
contracts)

20%

Increase in
employee discipline
(Automated
attendance control)

15%

Cost optimization
(Accurate, real-time
expense tracking)

High ROI: The cost of an ActiveMap license is approximately 1% of a field employee's payroll fund.
